

Special Instructions

CS 6440: Introduction to Health Informatics
Fall 2016
Team FHIR Stop

To run our application (and/or easily inspect the source code), use Android Studio to open the MASS project by pointing it to **Improving-Medication-Adherence/Final Project/Final Application/Application/MASS folder** (see below) in our team GitHub repo (<https://github.gatech.edu/gt-hit-fall2016/Improving-Medication-Adherence>).

The project can be built and run in an emulator that supports API 24+.
